COMMON IRREGULARITIES & INFRINGEMENTS

MALFUNCTIONS – rule 8.9.1

Check whether it is ALLOWABLE (i.e. it is not something the competitor could have reasonably avoided)

In the sighting series – rule 8.9.3c

- **If ALLOWABLE** – competitor is allowed another sighting series sequence to complete the unfired shots within two (2) minutes. This is fired immediately – i.e. before changing targets for the match.
- **If NON-ALLOWABLE** – no additional time or sighting shots will be allowed

In a competition series – rule 8.9.3a & b

- **If ALLOWABLE** - the competitor is allowed one (1) re-shoot in the Precision Stage (8.9.1): one (1) minute per shot is allowed to complete the series. This will be fired with the next series.
- **If NON-ALLOWABLE** – there is no reshoot permitted

Pistol breaks (break and cease) – rule 8.9.2

If the pistol is broken – this must be verified by the RO – up to 15 minutes is allowed for the competitor to repair or replace the pistol. The malfunction is classed as allowable even if the shooter has tried to fix it themselves. **However**, if there has been a previous malfunction claim then this break is classed as non-allowable so that the interrupted series cannot be completed, but the remaining series may be fired. One additional sighting series is allowed.

INTERRUPTIONS – rule 8.8.1

If a competitor is interrupted for more than 15 minutes extra sighting shots are allowed.

The interrupted series may be completed – time allowed is 1 minute per shot for the number of remaining shots. Note that if the entire range is affected you will allow the amount of time remaining at the time of the interruption.

DISTURBANCES - rule 8.8.4

- If the claim is justified the shot may be annulled and the shooter may repeat the shot and complete the series.
- If the claim is not justified (including if the competitor has fired a shot after the alleged disturbance) then the series may be completed but a 2-pt penalty must be imposed.
